— =trim line

OS: Win/Mac
Resolution: Minimum 150 dpi @ 100%
Bleeds: Minimum 5 mm
Colour Space: Always use CMYK color space, or if you need spot colors use Pantone Matching System only. Please don't use any colour profile, if it is very necessary use standard sheet offset printing with coated paper.
Proof: Please attach a contract quality colour proof to the files, or at the very least a preview file (Adobe PDF or JPG) also.
File Formats: You can use bitmap (tiff, eps) and vector (ai, eps, cdr, Adobe PDF) format also. If you give source files, please also give the linked files too.
Note: In case of different branding on both sides, please advice which branding is used for left side and which for right side.
